## GIFT BOXES FROM CHINA

Questions to ask:

1. Is this a gift box made of paper or paperboard? If yes, possible antidumping
2. Are boxes folding type? If yes, possible antidumping
3. Are boxes rigid? If yes, no antidumping?
4. Are boxes made of corrugated paperboard? If yes, no antidumping.
5. Are boxes made of paper mache ? If yes, no antidumping.
6. Are the folding paperboard boxes made in China? If yes, possible antidumping. If manufactured elsewhere, no antidumping.
7. When the folding box from China is assembled, is ANY SIDE greater than 9 inches? If yes, antidumping. (All sides less than 9" will not be subject to antidumping.)
8. **What is the thickness of the paper or paperboard; thicker than .8 mm? If thicker than .8 mm, no antidumping; .8 mm or less - yes, antidumping.**
9. Do boxes have name, logos, trademarks or similar company information printed on the carton's top exterior? If yes, no antidumping.
10. Is carton one single color AND are boxes NOT packaged in shrink wrap? If BOTH apply, no antidumping.

Classification: 4819.20.0040 and 4819.50.4060

Antidumping scope includes: folding paper or paperboard boxes (.8 mm or less in thicker) manufactured in China, with any side greater than nine inches on any one side.

Antidumping scope excludes: Molded for specific gift, rigid, one color AND not packaged in shrink wrap, logos or trademarks on box.

Typically with holiday motifs and designs - including printing, embossing, debossing, foil stamping - but may be plain white or printed in one color. Can be one-piece die cut or two-piece (with top and bottom).
